PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in enterprise systems using asp .net core/framework and a growing command of the MERN stack. I specialize in building secure, scalable applications and continuously expand my skill set to stay ahead of evolving tech landscapes. Seeking roles that challenge technical depth and reward architectural thinking.

EXPERIENCE

Software Engineer | TekSewa Services Ltd Sep 2025 – Present

- Contributed as a full-stack developer to migrating SaaS-based bidding and CMS modules to microservices architecture using ASP.NET Core Web API and MVC with clean architecture; worked on select frontend and backend pages and actively debugged various issues across the system.

Software Engineer | Oxpan Microsys Jan 2021 – Sep 2025

- Developed secure RESTful APIs with JWT/API key authentication and built WPF/WinForms apps for billing, inventory, and transaction management.
- Led Mobile Banking Microservice and contributed to CoopNxt CBS as a core member.
- Optimize and enhance SQL Server database with efficient views, procedures and trigger.
- Collaborated with clients to gather requirements and authored comprehensive technical documentation.

Technical Support| Oxpan Microsys Jun 2017 – Dec 2020

- Installed systems, configured databases, and provided client support by on-site and remote troubleshooting.

PROJECTS

- **iPD | iCX** | Software Engineer Sep 2025 – Present
  Joined the migration team for the Estimate, Bidding and Construction Management System, contributing to the transition into a Clean Architecture microservices application.
  Tech Stack: Asp .net core, Jquery, MVC, Kendo UI.
- **Mobile Banking Connector** | Software Engineer Jun 2024 – Sep 2024
  Developed a modular multi-tier API integrating Mofin, mbank, and ISmart with JWT/API key security; built scalable multi-tenant architecture serving 5,000+ users under 1000ms response time.
  Tech Stack: ASP.NET Web API, MSSQL, Dapper, IIS, C#
- **CoopNxt** | Back-end Developer Jun 2022 – Mar 2023
  Built RESTful APIs for cooperative banking using three-tier architecture and Dapper ORM.
  Tech Stack: ASP.NET Web API, MSSQL, Dapper, IIS, C#
- **BANCOS** | Junior .NET Developer Jan 2021 – May 2022
  Created multi-form WPF applications with ADO.NET for CRUD operations.
  Tech Stack: WPF, MSSQL, AvalonDock

Personal Projects

- **Resume Builder -** MERN-based project with React, Node.js, MongoDB, Tailwind, Redux Toolkit, TypeScript, AWS LightSail, Zod and so on. Live
- **Dev Diary -** Full-stack journal app (React + ASP.NET + MSSQL + Cloudflare). Live

KEY ACHIEVEMENTS

TekSewa:

- Enhanced system reliability during SaaS migration by resolving complex integration issues and refactoring legacy code to align with Clean Architecture.
- Implemented dynamic navigation menus

Oxpan Microsys

- Delivered multiple secure REST APIs and optimized performance by ~30%.
- Built 3+ desktop apps and migrated 50,000+ records with zero data loss.

EDUCATION

BSc in Computer Software Engineering ISMT College, Graduated Oct 2023 -First Class Honors

TECHNICAL SKILLS

- **Backend:** C#, .NET Core, ASP.NET Web API, MVC, Microservices, Clean Architecture.
- **Frontend:** React, JavaScript, TypeScript, Tailwind CSS, Kendo UI, jQuery
- Data & Persistence: MSSQL (SQL Server), MongoDB, Dapper, Entity Framework
- DevOps & Tools: Git, Docker,Nginx, IIS, VPS, JIRA, Swagger.Tool

Certification

- Foundational C# with Microsoft , freeCodeCamp (Mar 2024 - Apr 2024)
- MERN Stack, Broadway Infosys (Feb 2025 - May 2025)
- From Zero to Hero: Rest APIs in .Net, Dometrain, (issued in Feb 2025)

Additional Skills:

- **Languages:** English (Fluent), Nepali (Native).
- **Soft Skills:** Technical Leadership, Client Communication, Requirement Analysis, Problem Solving, collaborative Team Player.
